

Apprenticeship industrial mechanic (m/f/d)

Stellenbeschreibung

Glasrecycling Neuburg GmbH & Co KG is a subsidiary of the Büchl Group and PreZero.

We are a successful glass processing company based in Neuburg an der Donau. We protect resources and process cullet so that it can be used as a new raw material in the glass industry. In this way, we are actively helping to reduce CO2 emissions in glass production and making a major contribution to climate protection.
