

Expert for sustainability management (focus on sustainability reporting) (m/f/d)

Stellenbeschreibung

The Institute for Applied Sustainability is special and diverse! We are part of a traditional and innovative family business, the BÜCHL Group. We are an affiliated institute of the Catholic University of Eichstätt-Ingolstadt and the Technical University of Ingolstadt. We are active in research and teaching and work together with partners from science and industry on important and future-oriented issues. We are the practical and implementation-oriented partner for (medium-sized) companies and accompany them on their way to sustainability. This diversity makes the work at our institute unique. We are looking for reinforcement for the further development of our young and ambitious institute at the earliest possible date.

Qualifikationen / Anforderungen

- A degree in the field of sustainable corporate management, environmental sciences, economics or a comparable field of study
- At least one to two years of professional experience and sound knowledge in the field of sustainability management
- Experience in project management or project leadership is desirable
- Knowledge of sustainability reporting (e.g. also through projects) is desirable
- Strong analytical thinking skills and a confident handling of numbers and large amounts of data
- Sound knowledge of MS Office, in particular confidence in the development of Excel tools
- Very good communication skills in working with people from different disciplines and different customer groups
- Very good knowledge of English
- Willingness to travel on business, also in other European countries

Zuständigkeiten / Hauptaufgaben

- You are our expert for sustainability management, reporting and strategy. In particular, you are the central point of contact for inquiries about environmental and
